Read the text. Choose the right words and write them on the lines.

Octopus

Example

The octopus is a strange animal *because* it has four

1 pairs of arms. It can use its arms walk.

But it usually swims through the water.

2 They have got a but no bones!

3 bodies are really soft so they can

4 easily swim through small spaces under

5 We found about 300 different kinds of

6 octopus, but we are still new ones.

7 Many kinds only live about six months.

Others may live until they are about five years old. When
an octopus is frightened it usually tries to hide.

8 Many can also colour so fish

9 are bigger or more

dangerous won't catch them.

10 Have you ever an octopus?
